Subject: Letter of Recommendation for Theodore H. Sprink

To whom it may concern:

It gives us great pleasure to endorse the professionalism, talent and integrity of Ted Sprink, an industry visionary and client of Bazooka Communications for eight years.

We have supported Mr. Sprink in his role as Chief Marketing Officer of the nation's leading provider of commercial real estate origination and closing services. Our role has been to develop marketing communications in support of a national, multi-dimensional, multi-brand business program shaped by Mr. Sprink, targeting commercial real estate, commercial finance and the legal community.

Having been involved in many aspects of real estate and financial industry segments for the better part of our careers, we have been both intrigued and impressed by the boldness of the UCC program.

Mr. Sprink has consistently demonstrated exceptional creativity and commitment. In addition to being a strategic thinker he has extraordinary team building skills, is an excellent project manager and has precise and cogent communication skills.

The concepts he has developed and implemented represent substantial revenue and cross-marketing opportunities for Fidelity National Financial Inc. and its subsidiaries, with sales orders reportedly exceeding \$475 billion.

Sincerely,

Dave Ross
President
